About Kamakura

Kamakura city, which comes under the Kanagawa prefecture, has inspired millions of people across Japan through its rich history of Buddhism, temples and values for respecting nature. We dedicate our Kamakura Daikon Project to the people of Kamakura.

Kamakura Daikon Project (KDP)

As per mythological stories in the year 1192 when the founder of Kamakura, Minamoto Yoritomo and the thousands of people of the Kamakura were suffering from a prolong illness and no medicine could treat them, it was the intake of the 'miracle food' the Kamakura Daikon (radish) made all of them healthy. Since then Kamakura Daikon (radish) become the household name in Japan for its miracle properties. KDP is our effort to recreate the history in close collaboration with the local farmers of Kamakura. We want to share the miracle Daikon (radish) food with the people across the Globe!
